PB&J Day – Join us April 2nd 2:30pm

Can you even imagine a world without peanut butter and jelly? April 2 is Peanut Butter and Jelly Day in honor of this ubiquitous sandwich staple. Before the average American finishes high school, they will have consumed 2,000 PB&Js. When did this sandwich achieve celebrity status? The first record of peanut butter and jelly on bread came in 1901, when Julia David Chandler mentioned the recipe in a book detailing the preparation of finger sandwiches for small parties. She wrote, “The combination is delicious, and, so far as I know, original.” Then, in 1922, Joseph Rosefield transformed the peanut butter industry by devising a method to keep peanut butter from separating. He called his new peanut butter *Skippy*. At the same time, American manufacturing evolved to mass produce peanut butter and lower the cost, making it affordable to all. When sliced bread was invented in 1928, sandwiches became easier to make and, thanks to lobbying efforts by the peanut butter industry, the PB&J sandwich became standard fare in lunchboxes around the country. If peanut butter and jelly isn't your favorite sandwich, then just wait until April 12, Grilled Cheese Day.
